

POSSE

THE
POSSE
FOUNDATION
ANNUAL REPORT
2024

DEAR

FRIENDS,

Thirty-six years ago, in 1989, Posse's first five Scholars left New York City for Vanderbilt University. Together, they carried a bold new idea—that a small, diverse group of talented students, united by potential and community, could change the world.

More than three decades later, the world around us has changed. Political, environmental, and technological shifts have brought both urgent challenges and unprecedented opportunities. Meeting this moment requires leaders of vision, moral courage, and a deep commitment to making the world better.

Posse was built for this moment.

Posse identifies and supports this country's best and brightest young people. Posse is the only national merit, college success and leadership development program, that without screening for race or need, boasts students from a broad range of socioeconomic and racial backgrounds. Our sole criterion for selection is excellence. Our more than 9,000 alumni embody the power of teamwork, intelligence, and diversity. In the face of today's many unsettling uncertainties, Posse Scholars give us optimism and inspiration.

Recruited from the top-ranks of public schools, Posse Scholars bring invaluable perspectives to their institutions. In college, they foster connections, build bridges, and enrich the intellectual life of their campuses. They are class presidents, commencement speakers, founders of student-run organizations, and winners of prestigious awards. A majority pursue graduate or professional degrees.

Most important, Posse Scholars go on to become leaders in their fields. Posse Scholars are spearheading cancer treatments, launching public schools for unhoused youth, heading investment firms, shaping the ethical development of AI, contributing to cutting edge research in astrophysics. Together, they form a powerful network of smart, conscientious professionals.

Posse partners with 60 top-tier institutions of higher education—schools such as Vanderbilt, Cornell, Northwestern, UVA, Pomona, Middlebury. Of the more than 17,000 students nominated last year, only 5% were selected. To date, more than 14,000 Scholars have won a total of \$2.45 billion in full-tuition scholarships from Posse partner colleges and universities.

By building a diverse network of talented, forward-thinking individuals with entrepreneurial spirits, we are ensuring that the concerns and values of our country's many communities are represented at the highest levels of decision-making. Their voices will be critical to navigating the complex challenges before us and to forging a future that serves us all.

This year's annual report shows how Posse was built for this historic moment. In our Scholars, we see the promise of a better future—one that is more inclusive, more equitable, and more united. Thank you for believing in this vision and helping to make it a reality.

Best,

Deborah Bial

An aerial photograph of the Carleton College campus during autumn. The central focus is a large, classical-style building with a prominent portico supported by white columns. The building's roof is dark, and its walls are light-colored. To the left, a multi-story red brick building is visible. The campus is surrounded by trees with vibrant yellow and orange foliage. In the foreground, a paved area features a large, stylized 'C' logo. A few people are walking and pushing a stroller in the lower-left corner. The sun is low in the sky, creating a warm, golden glow over the entire scene.

IN HIGHER EDUCATION IN THE LAST QUARTER OF A CENTURY.”**

MISSION

The Posse model works for both students and college campuses and is rooted in the belief that a small, diverse group of talented students—a Posse—carefully selected and trained, can serve as a catalyst for increased individual and community development. As the United States becomes an increasingly multicultural society, Posse believes that the leaders of the 21st century should reflect the country's rich demographic mix. The key to a promising future for our nation rests on the ability of strong leaders from diverse backgrounds to develop consensus solutions to complex social problems. Posse's primary aim is to train these leaders of tomorrow.

CONCEPT

Posse started in 1989 because of one student who said, "I never would have dropped out of college if I'd had my posse with me." The Posse Foundation identifies public high school students with extraordinary academic and leadership potential who may be overlooked by traditional college selection processes. The Foundation extends to these students the opportunity to pursue personal and academic excellence by placing them in supportive, multi-cultural teams—Posses—of 10 students. The Foundation's partner colleges and universities award Posse Scholars full-tuition leadership scholarships.

GOALS

- 1 | To expand the pool from which top colleges and universities can recruit outstanding young leaders from diverse backgrounds.
- 2 | To help these institutions build more interactive campus environments so that they can be more welcoming for people from all backgrounds.
- 3 | To ensure that Posse Scholars persist in their academic studies and graduate so they can take on leadership positions in the workforce.

PROGRAM COMPONENTS

THE DYNAMIC ASSESSMENT PROCESS

Posse's Dynamic Assessment Process (DAP) is a unique evaluation method that identifies young leaders with great potential.

Running from September through December each year, DAP finds students who might be missed by the traditional admissions criteria at highly selective schools but who can excel on campus. DAP uses nontraditional forums to evaluate potential, offering nominated students an opportunity to demonstrate their intrinsic leadership ability, their skill at working in a team setting, and their motivation and drive to succeed.

DAP has proven to be an extremely effective tool. Using the three-part process, which includes group and individual interviews, partner college administrators ultimately select a diverse group of 10 students — a Posse — for each institution.

PRE-COLLEGIATE TRAINING

Posse's Pre-Collegiate Training (PCT) helps Scholars develop as leaders before they matriculate at college.

From January to August of their senior year in high school, newly selected Scholars meet weekly with Posse peers and staff for two -hour workshops that address four areas:

- Academic excellence
- Team building and group support
- Cross-cultural communication
- Leadership and becoming an active agent of change

CAMPUS PROGRAM

The four-year Campus Program works to ensure the retention of Posse Scholars and to increase the impact of the program on campus.

Posse staff visit each school four times annually for meetings with Scholars, campus liaisons and mentors. During a Posse's first two years on campus, Scholars meet with their mentor weekly as a group and individually every two weeks.

Posse also facilitates a weekend-long PossePlus Retreat for each of its partner schools in the spring. Attended by members of the student body, faculty and administration, PossePlus Retreats explore an important social issue identified by Scholars.

CAREER PROGRAM

The Career Program connects Posse Scholars and alumni to highly coveted professional development opportunities.

By partnering with industry-leading companies and organizations and establishing affiliations with first-tier graduate and professional schools, the Career Program gives Scholars tools to secure competitive internships and leadership-track jobs in a wide range of fields.

The Career Program has five components:

- 1 | Internships
- 2 | Career Development Workshops
- 3 | Career Coaching
- 4 | Graduate + Fellowship Programs
- 5 | The Alumni Network

COLLEGE + UNIVERSITY PARTNERS

The Posse Foundation thanks its college and university partners. In 2024, the Foundation’s undergraduate partners awarded 880 Posse leadership scholarships totaling more than \$200 million to students across the country.

“POSSE SCHOLARS EXCEL IN THE CLASSROOM
AND ARE LEADERS IN THEIR SCHOOLS AND NEIGHBORHOODS.”

They then take their gifts to top colleges and universities across the country to show what it means to lead with purpose and intention. I am proud to celebrate Posse because you are investing in our future leaders who will challenge the world as it is and work to make it better. I am excited for the next generation of leaders and the impact they will make!”

The Global Fellowships Forum (GFF) is a select group of renowned fellowship programs from around the world. Its annual event showcases best practices and connects member organizations’ alumni communities. The consortium’s ultimate goal is to establish a global network of effective, inclusive leaders working in a broad array of fields.

The 2024 GFF was held at McCall McBain House in Montréal, Canada. Attendees included program CEOs, directors, and alumni. In addition to working sessions, the three-day conference featured keynote speaker Joelle Pineau, the vice president of AI research at Meta.

“WE ARE STRONGER TOGETHER.”

AND THE “WE” THAT IS “STRONGER TOGETHER” IS NO MONOLITH.

It is not the “we” of some narrow ideology or identity. Rather, it is a “we” made up of many different backgrounds, that has experienced the world from varied angles and brings with it a diversity of talents and perspectives. This “we” I have in mind leads with compassion but is fierce in its commitment to the self-evident, humanist ideals that are the true source of our prosperity.”

“I INVEST IN POSSE BECAUSE I BELIEVE EDUCATION SHOULD BE AVAILABLE TO ALL WHO SEEK A HIGHER LEVEL OF LEARNING.

Posse and its college partners make higher education available to students who might not otherwise have been able to attend. This is beyond powerful.”

A. BASIS OF ACCOUNTING

Posse’s financial statements have been prepared on the accrual basis of accounting. Posse adheres to accounting principles generally accepted in the United States of America (“U.S. GAAP”).

B. BASIS OF PRESENTATION

Net assets, revenues, gains and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows::

Net Assets Without Donor Restrictions – represents resources available for support of Posse’s operations over which the Board of Directors (the “Board”) has discretionary control and not subject to donor (or certain grantor) restrictions. The Board has designated, from net assets without donor restrictions, net assets for an operating reserve.

Net Assets With Donor Restrictions – represents net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donors stipulate that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

C. ENDOWMENT NET ASSETS

The Board of Posse recognizes that New York State adopted as law the New York Prudent Management of Institutional Funds Act (“NYPMIFA”) on September 17, 2010. NYPMIFA replaced the prior law which was the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”). In addition, NYPMIFA created a rebuttable presumption of imprudence if an organization appropriates more than 7% of a donor-restricted perpetual endowment fund’s fair value (averaged over a period of not less than the preceding five years) in any year. Any unappropriated earnings will be reflected as net assets with donor restrictions until appropriated.

The Board has interpreted NYPMIFA as allowing Posse to appropriate for expenditure or accumulate so much of an endowment fund as Posse determines is prudent for the uses, benefits, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument. Unless stated otherwise in the gift instrument, the assets in an endowment shall remain in net assets with donor restrictions until appropriated for expenditure by the Board. The Board appropriated for expenditure \$3,544,805 and \$3,359,233 from the cumulative earnings on endowment funds for the years ended December 31, 2024 and 2023, respectively. Therefore, the remaining earnings, if any, are reported as net assets with donor restrictions.

Posse’s endowment investment policy is to invest primarily in equities and fixed income securities based on an asset allocation to satisfy its overall endowment financial and investment objectives such as to preserve the principal, protect against inflation, receive stable returns and achieve long-term growth. Posse relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Annual spending from the endowment fund for program expenses is established by the Board of Directors prior to the beginning of each fiscal year as part of the annual budget process. Unless authorized by the Board of Directors, the appropriations from the endowment funds should not deplete the real dollar value of the endowment fund.
