

THE Posse Foundation

2015

ANNUAL
REPORT

DEAR FRIENDS,

In 2015, from more than 17,000 nominations nationwide, 718 new Posse Scholars were selected. They join a growing network of Posse Scholars and alumni that today is more than 7,000 strong.

As we look to the future, we have great confidence in the ability of these young people to lead our nation. They are as diverse as the American population and represent the best of what this country has to offer. We thank our supporters and partners in higher education for their deep commitment to these students.

The past 10 years have been ones of tremendous growth for The Posse Foundation. I want to acknowledge that Posse's successes would not have been possible without the decade-long service of one of the organization's greatest champions, Jeff Ubben.

During Jeff's tenure as Posse's board chair, from 2007 to 2016, the organization grew exponentially. Jeff helped establish 47 new college and university partnerships and led the organization to double its number of chapters. Under his leadership, Posse's assets increased to nearly \$80 million. Jeff was one of two donors to underwrite the expansion of Posse's STEM Program, allowing it to double in size. Similarly, he helped establish the Posse Veterans initiative. He was instrumental in expanding the national board and local advisory boards, bringing on countless new supporters and advocates. He recruited VIPs and celebrities to work with the organization, including John Leguizamo, Bruno Mars and Sting.

Jeff's personal success, gregarious spirit and generous heart serve as a model for all Posse Scholars and alumni. Always modest, never seeking the limelight, Jeff has personally committed close to \$30 million to this organization.

Above all, Jeff is a powerful advocate for Posse Scholars. He understands how deeply this country needs their intellect and insights.

It has been my personal honor and privilege to have worked with Jeff. Our board, our staff, our Scholars and alumni thank him. We all look forward to continuing to count him among the most important advocates for the promotion of equity and excellence in the ranks of leadership in this country.

The following pages highlight Posse's successes over the past year and the wonderful Scholars who are defining a new American leadership.

Warmly,

Deborah Bial

CONCEPT MISSION GOALS

Arne Duncan with Posse Scholar Janeya Cunningham at DePauw University's Ubben Lecture series, where he spoke about education and highlighted Janeya as an exemplary student leader.

Like the President, I'm a huge fan of Posse. You guys have done an unbelievable job and your graduation rates are through the roof. It's a really innovative, thoughtful program.

ARNE DUNCAN
FORMER U.S. SECRETARY
OF EDUCATION

— CONCEPT —

The Posse Foundation, founded in 1989, identifies public high school students with extraordinary academic and leadership potential who may be overlooked by traditional college selection processes. The Foundation extends to these students the opportunity to pursue personal and academic excellence by placing them in supportive, multicultural teams—Posses—of 10 students. The Foundation's partner colleges and universities award Posse Scholars four-year, full-tuition leadership scholarships.

— MISSION —

The Posse model works for both students and college campuses and is rooted in the belief that a small, diverse group of talented students—a Posse—carefully selected and trained, can serve as a catalyst for increased individual and community development.

As the United States becomes an increasingly multicultural society, Posse believes that the leaders of this new century should reflect the country's rich demographic mix, and that the key to a promising future for our nation rests on the ability of strong leaders from diverse backgrounds to develop consensus solutions to complex social problems. One of the primary aims of the Posse Program is to train these leaders of tomorrow.

— THREE GOALS —

1. To expand the pool from which top colleges and universities can recruit outstanding young leaders from diverse backgrounds.
2. To help these institutions build more interactive campus environments so that they can become more welcoming institutions for students from all backgrounds.
3. To ensure that Posse Scholars persist in their academic studies and graduate so they can take on leadership positions in the workforce.

FIVE PROGRAM COMPONENTS

1

RECRUITMENT

From September to December each year, Posse conducts the Dynamic Assessment Process (DAP), a unique evaluation method designed to identify young leaders who might be missed by traditional admissions criteria but who can excel at selective colleges and universities. Using nontraditional forums to evaluate potential, DAP offers students an opportunity to demonstrate their intrinsic leadership abilities, their skill at working in a team setting, and their motivation and desire to succeed. DAP has proven to be an extremely effective tool for identifying outstanding young leaders. Through a three-part process, including large-group and individual interviews, Posse staff and partner college and university administrators ultimately select a diverse group of 10 students for each institution, thus forming a Posse.

2

PRE-COLLEGIATE TRAINING PROGRAM

From January to August of their senior year in high school, Posse Scholars meet weekly with staff trainers and their Posse peers for two-hour workshops. The Pre-Collegiate Training Program consists of workshops that address four areas: 1) team building and group support, 2) cross-cultural communication, 3) leadership and becoming an active agent of change on campus, and 4) academic excellence. The goal of the Pre-Collegiate Training Program is to prepare Scholars for leadership roles on campus and for the high-level academic expectations of their colleges.

3

CAMPUS PROGRAM

The Campus Program works to ensure the retention of Posse Scholars and to increase the impact of Posse on campus. Posse staff members visit each college and university four times a year for meetings with Posse Scholars, campus liaisons and mentors. During a Posse's first two years on campus, Scholars meet with their mentor each week as a group and every other week individually. In addition, Posse facilitates an annual weekend-long PossePlus Retreat attended by members of the larger student body, faculty and administration with the goal of discussing an important campus issue identified by Posse Scholars.

4

CAREER PROGRAM

The Career Program supports Posse Scholars as they transition from being leaders on campus to becoming leaders in the workforce. Posse plays an integral role in the professional development of these young people by providing them with the tools and opportunities necessary to secure highly competitive and career-enhancing internships, jobs, graduate degrees and fellowships. Posse achieves this by partnering with exceptional companies and organizations, both nationally and abroad, and by establishing affiliations with top graduate and professional schools. The Career Program has five core components: 1) Internships, 2) Career Development Workshops, 3) Career Coaching, 4) Graduate + Fellowship Programs, and 5) The Alumni Network.

5

POSSE ACCESS

Posse Access is an online database designed to give Posse partner colleges and universities exclusive access to unselected student nominees to consider for regular admission. Through Posse Access, the hundreds of finalists nationwide who are not selected can opt to have their application profiles made available to each of Posse's partner institutions. By identifying candidates through the Posse Access database, partner schools benefit from Posse's holistic approach to evaluating student potential and see a much greater pool of highly qualified students.

STEM + VETERANS INITIATIVES

In addition to its traditional model, The Posse Foundation offers two specialized programs that serve post-9/11 U.S. veterans and students interested in pursuing careers in science, technology, engineering and math (STEM). These initiatives further the Foundation's goal of building a diverse network of leaders for the nation.

Our student veterans bring so much to campus life, and we are grateful to The Posse Foundation for helping connect them to Wesleyan. Over the past two years, these veterans have contributed their special skills, perspectives and work ethic to classroom discussions, student government, athletics, research, and much more. We are proud to count them among our students, and look forward to welcoming the third Posse of veteran Scholars to campus this fall.

“

Posse has changed the lives of many Miami-Dade County Public Schools students—oftentimes the first in their families to go to college—by offering them hope and opportunity. It is a program that exemplifies the true meaning of community partnership. The Posse program is definitely expanding opportunities for deserving youth in Miami and its other sites.

The accompanying notes are an integral part of these financial statements.

a) Basis of Accounting

Posse's financial statements have been prepared on the accrual basis of accounting. Posse adheres to accounting principles generally accepted in the United States of America.

b) Basis of Presentation:

Posse maintains its net assets under the following three classes:

Unrestricted - represents resources available for support of Posse's operations over which the Board of Directors (the "Board") has discretionary control.

Temporarily restricted - net assets resulting from contributions and other inflows of assets subject to donor-imposed stipulations that either expire by the passage of time or can be fulfilled and removed by actions of Posse pursuant to those stipulations. When such stipulations end or are fulfilled, such temporarily restricted net assets are reported in the statement of activities as net assets released from restrictions. Earnings on endowment assets are temporarily restricted until appropriated by the Board for spending.

Permanently restricted - net assets subject to donor-imposed stipulations that principal be maintained permanently by Posse.

c) Endowment Net Assets

The Board of Posse recognizes that New York State adopted as law the New York Prudent Management of Institutional Funds Act ("NYPMIFA") on September 17, 2010. NYPMIFA replaced the prior law which was the Uniform Management of Institutional Funds Act ("UMIFA"). In addition, NYPMIFA created a rebuttable presumption of imprudence if an organization appropriates more than 7% of a donor-restricted permanent endowment fund's fair value (averaged over a period of not less than the preceding five years) in any year. Any unappropriated earnings that would otherwise be considered unrestricted by the donor will be reflected as temporarily restricted until appropriated.

The Board has interpreted NYPMIFA as allowing Posse to appropriate for expenditure or accumulate so much of an endowment fund as Posse determines is prudent for the uses, benefits, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument. Unless stated otherwise in the gift instrument, the assets in an endowment shall be donor-restricted until appropriated for expenditure by the Board. The Board appropriated for expenditure \$929,905 and \$1,048,645 from the cumulative earnings on permanently restricted funds for the years ending December 31, 2015 and 2014, respectively. Therefore the remaining earnings, if any, are reported as temporarily restricted.

Posse's endowment investment policy is to invest primarily in equities and fixed income securities based on an asset allocation to satisfy its overall endowment financial and investment objectives such as to preserve the principal, protect against inflation, receive stable returns and achieve long-term growth. Posse relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Annual spending from the endowment fund for program expenses is established by the Board of Directors prior to the beginning of each fiscal year as part of the annual budget process. Unless authorized by the Board of Directors, the appropriations from the endowment funds should not deplete the real dollar value of the endowment fund.

POSSE BOARD

“

During my day job as an investor, I seek those rare opportunities in which great management teams execute on a focused mission that delivers high value to all of its constituencies. It was clear from the beginning that The Posse Foundation justified my investment. And it continues to flourish, fulfilling its goals of stretching the definition of merit among college-bound public school students, of opening lines of communication on campus, and of shaking up the leadership ranks in the workforce.
