# Dear Friends.

These are challenging times. We are living through a year of overlapping crises that are sure to leave an indelible mark on our country and the world.

Historians will look back on 2020 as the year the COVID-19 pandemic upended our lives and fundamentally altered our sense of safety and normalcy. They will remember that the murder of George Floyd ignited worldwide protests calling for radical reforms. Undoubtedly, they will view November's presidential election as one of the most consequential in our entire history as a nation.

2020 has revealed our vulnerabilities and challenges within our democracy like no other year in recent memory. How we respond to these social and political ruptures will shape our future in profound ways. The stakes have never been higher, the need for effective leadership, on all fronts, never more apparent.

For 31 years, Posse has worked to build a network of leaders up to the task. Posse Scholars reflect the dynamism and diversity of our country's biggest cities. They exemplify the power of determination and the tremendous leadership potential to be found in our public schools. As college students, Posse Scholars are exceptionally engaged, helping to build community and taking full advantage of the unique opportunities a great education affords. As graduates, they enter the workforce well positioned to become leaders in their fields.

And lead they do. Posse alumni are climbing the ranks in every industry and using their voices to create a space for others. They are building

more inclusive communities and culture. They are on the frontlines as activists and organizers. doctors and healthcare professionals, lawyers and members of legislative staffs. We need their advocacy and are lucky to have their leadership. In fact, Posse's ultimate goal, in partnership with the top colleges and universities, is to build a leadership network that reflects the great diversity of the country.

This has been a year of upheavals. But like all major disruptions, they present many opportunities—to fortify the protections available to those less privileged and to reimagine our society as one rooted in fairness and compassion. Posse is committed to doing its part to make the most of these opportunities so we can look back on this year as one that ushered in great progress and lasting change.

Since 1989. The Posse Foundation has enjoyed the support of people from all walks of life, of all persuasions, united by a shared belief in the promise of Posse Scholars. We've felt the breadth and depth of that support this year. Amidst all of the uncertainty, we've been able to keep our doors open thanks to the steadfast generosity of individuals and organizations that believe in our mission. We are incredibly grateful to our partner colleges and universities, whose commitment to the success of Posse Scholars has not wavered in the face of these daunting circumstances. We have also been deeply moved by the many donations we've received during this period of economic turmoil. These investments are truly humbling, and we are forever grateful.

Thank you for believing in Posse, especially now.

# POSSE **BY THE NUMBERS**

More than 9,900 students have become Posse Scholars.

90%

Posse Scholars graduate at a rate of 90 percent.

Posse Scholars have won \$1.5 billion in leadership scholarships.

# 10 CITIES

Posse operates in Atlanta, Bay Area, Boston, Chicago, Houston, Los Angeles, Miami, New Orleans, New York and Washington, D.C.

\$155M

In 2019, Posse's undergraduate partners awarded \$155 million in leadership scholarships to Posse Scholars nationwide.

# 550

Since 2001, Scholars have won over 550 national fellowships. including the Soros, Marshall, Gates, Truman. Watson, Beinecke, Davis and Fulbright.

Since 2013, 189 post-9/11 U.S. veterans have become Posse Scholars, attending Dartmouth College, University of Chicago, University of Virginia, Vassar College and Wesleyan University.

Close to 40,000 college students have attended PossePlus Retreats where students, faculty and administrators discuss social and political issues.

# **MISSION**

The Posse model works for both students and college campuses and is rooted in the belief that a small, diverse group of talented students—a Posse—carefully selected and trained, can serve as a catalyst for increased individual and community development. As the United States becomes an increasingly multicultural society, Posse believes that the leaders of the 21st century should reflect the country's rich demographic mix. The key to a promising future for our nation rests on the ability of strong leaders from diverse backgrounds to develop consensus solutions to complex social problems. Posse's primary aim is to train these leaders of tomorrow.

# CONCEPT

Posse started in 1989 because of one student who said, "I never would've dropped out of college if I'd had my posse with me." The Posse Foundation identifies public high school students with extraordinary academic and leadership potential who may be overlooked by traditional college selection processes. The Foundation extends to these students the opportunity to pursue personal and academic excellence by placing them in supportive, multi-cultural teams—Posses—of 10 students. The Foundation's partner colleges and universities award Posse Scholars full-tuition leadership scholarships.

# GOALS

- 1. To expand the pool from which top colleges and universities can recruit outstanding young leaders from diverse backgrounds.
- 2. To help these institutions build more interactive campus environments so that they can be more welcoming for people from all
- 3. To ensure that Posse Scholars persist in their academic studies and graduate so they can take on leadership positions in the workforce.

### The Dynamic Assessment Process

Posse's Dynamic Assessment Process (DAP) is a unique evaluation method that identifies young leaders with great potential. Running from September through December each year, DAP finds students who might be missed by the traditional admissions criteria at highly selective schools but who can excel on campus. DAP uses nontraditional forums to evaluate potential, offering nominated students an opportunity to demonstrate their intrinsic leadership ability, their skill at working in a team setting, and their motivation and drive to succeed. DAP has proven to be an extremely effective tool. Using the three-part process, which includes group and individual interviews, Posse staff and partner college administrators ultimately select a diverse group of 10 students—a Posse for each institution.

### Campus Program

The four-year Campus Program works to ensure the retention of Posse Scholars and to increase the impact of the program on campus. Posse staff visit each school four times annually for meetings with Scholars, campus liaisons and mentors. During a Posse's first two years on campus, Scholars meet with their mentor weekly as a group and individually every two weeks. Posse also facilitates a weekend-long PossePlus Retreat for each of its partner schools in the spring. Attended by members of the student body, faculty and administration, PossePlus Retreats explore an important social issue identified by Scholars.

### Pre-Collegiate Training

Posse's Pre-Collegiate Training (PCT) helps Scholars develop as leaders before they matriculate at college. From January to August of their senior year in high school, newly selected Scholars meet weekly with Posse peers and staff for two-hour workshops that address four areas:

- 1. Academic excellence
- 2. Team building and group support
- 3. Cross-cultural communication
- 4. Leadership and becoming an active agent of change

### Career Program

The Career Program connects Posse Scholars and alumni to highly coveted professional development opportunities. By partnering with industry-leading companies and organizations and establishing affiliations with first-tier graduate and professional schools, the Career Program gives Scholars tools to secure competitive internships and leadership-track jobs in a wide range of fields. The Career Program has five components:

- 1. Internships
- 2. Career Development Workshops
- 3. Career Coaching
- 4. Graduate + Fellowship Programs
- 5. The Alumni Network

SAVANNA TOURE
LAFAYETTE COLLEGE
POSSE SCHOLAR
(CLASS OF 2021)
POSSE D.C.

Savanna is the first-ever Lafayette College student to receive the prestigious Truman Scholarship, a government-funded award dedicated to elevating the next generation of public service. The D.C. native also received a Goldwater Scholarship this year for research and clinical work. "It's very rare for people to win both of them, let alone one. It definitely validates everything I'm doing." For now that includes her work examining health disparities and reproductive health—particularly for women of color and queer communities — and a recent semester abroad in Cape Town, South Africa.

"When I started being interested in this research, I found that Black women die at four times the rate of European women. Since then my focus has been on learning more about it. I want to make a career out of it." In the future she envisions completing an MD/PhD program and eventually becoming a director of a health organization or pursuing HPV-associated cancer research. Of her fellowships, she says: "It opens doors; I have a lot of new opportunities."

FELLOWSHIP PROGRAMS

The Posse Foundation supports Scholars and alumni in their pursuit of graduate and fellowship opportunities. Since 2001, Posse Scholars have won over 550 national fellowships including:

- Boren Scholarship
- Critical Language Scholarship Program
  - Davis Projects for Peace
- Fulbright U.S. Student Program
- Gilman International Scholarship Program

**JOHNATHAN NIEVES** DICKINSON COLLEGE **POSSE ALUMNUS** (CLASS OF 2011) POSSE NEW YORK

Dickinson Posse alum Johnathan Nieves grew up in New York City's Spanish Harlem, and is now an emergency resident physician in Hartford, Connecticut. "Working in the ER here is what I set out to do—I have to be able to take care of everything from the neonate to the geriatric patient, the teenager to the mother who's having her first child," he says, noting he feels a connection with the high-poverty, mainly Spanish-speaking community in central Hartford. "I want to try to influence change where I can, and I want to make a difference in the lives of those less fortunate." Johnathan's own childhood experiences in hospitals with ill family members has become a motivating force behind his work. "The patient experience is so important," he says. "Now it's my job to ensure that my patients have the comfort that they need, and to remember they're in a really scary environment that they're not used to." As for emergency medicine in the United States, especially in light of COVID-19: "It's long overdue for an overhaul," he says. "We're staffed fairly thin to begin with, and we struggle because of limited resources. I think the system is broken and needs to be fixed." He credits Dickinson's small science community and Posse with keeping him motivated through his undergraduate pre-medical work, and beyond. "Posse really helps to foster our leadership and advocacy in college, and now in our professional communities," he says. "You don't really get that a lot in life, a structured environment that prepares us to be leaders in our communities."

When Nick West decided to apply for a spot in the Posse Veterans Program, he was already a four-year veteran of the U.S. Air Force. Following two deployments to Qatar, Nick took classes at Solano Community College in Fairfield, California, before traveling across the country to pursue a bachelor's degree at Vassar College. A sociology major, he found that coursework wasn't the only element at play as he found his footing. "The biggest challenge for veterans that I've noticed is adapting to their new life on campus," he says. "But the great thing about college is that you get the opportunity to reinvent yourself." The summer after his sophomore year,

Nick was selected for the prestigious Jeff Ubben Posse Fellowship, which took the form of an internship with Common App with their CEO Jenny Rickard. He shared his perspective as a first-gen student veteran throughout the experience, including at the 2019 Reach Higher Summit with former First Lady Michelle Obama. "My non-traditional journey from high school to the military, to community college, and finally to a 4-year college didn't make my education harder. It made it easier," Nick wrote in a 2019 opinion piece published in Forbes. "Every veteran in this country deserves a college education, and we can make that wish a reality."

For 20 years, Posse has connected phenomenal Chicago Public Schools senior students to top institutions of higher education, where they excel in unparalleled ways. The program is a launchpad for young leaders who go on to accomplish extraordinary things. We are proud that so many Posse graduates call Chicago home and contribute to the vibrancy of this city—as professionals but also as neighbors and people who care deeply about community and social justice. Especially now, in this time of upheaval and possibility, Posse Scholars are among those who give me hope.

Posse gave me an opportunity of a lifetime and I want others to have the same. Posse espouses the same values I have as an educator—it actually has molded my values providing underserved communities with access to quality education and removing obstacles that would keep them from succeeding. I am Posse for life. **CARL MANALO** 2019 **VANDERBILT UNIVERSITY** POSSE ALUMNUS CONTRIBUTORS

### A. Basis of Accounting

Posse's financial statements have been prepared on the accrual basis of accounting. Posse adheres to accounting principles generally accepted in the United States of America ("U.S. GAAP").

### **B.** Basis of Presentation

Net assets, revenues, gains and losses are classified based on the existence or absence of donoror grantor- imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

- Net Assets Without Donor Restrictions represents resources available for support of Posse's operations over which the Board of Directors (the "Board") has discretionary control and not  $subject\ to\ donor\ (or\ certain\ grantor)\ restrictions.\ The\ Board\ has\ designated, from\ net\ assets$ without donor restrictions, net assets for an operating reserve.
- Net Assets With Donor Restrictions represents net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor imposed restrictions are perpetual in nature, where the donors stipulate that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

### C. Endowment Net Assets

The Board of Posse recognizes that New York State adopted as law the New York Prudent Management of Institutional Funds Act ("NYPMIFA") on September 17, 2010. NYPMIFA replaced the prior law which was the Uniform Prudent Management of Institutional Funds Act ("UPMIFA"). In addition, NYPMIFA created a rebuttable presumption of imprudence if an organization appropriates more than 7% of a donor-restricted perpetual endowment fund's fair value (averaged over a period of not less than the preceding five years) in any year. Any unappropriated earnings will be reflected as net assets with donor restrictions until appropriated.

The Board has interpreted NYPMIFA as allowing Posse to appropriate for expenditure or accumulate so much of an endowment fund as Posse determines is prudent for the uses, benefits, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument. Unless stated otherwise in the gift instrument, the assets in an endowment shall remain in net assets with donor restrictions until appropriated for expenditure by the Board. The Board appropriated for expenditure \$1,811,000 and \$1,642,941 from the cumulative earnings on endowment funds for the years ended December 31, 2019 and 2018, respectively. Therefore the remaining earnings, if any, are reported as net assets with donor restrictions.

Posse's endowment investment policy is to invest primarily in equities and fixed income securities based on an asset allocation to satisfy its overall endowment financial and investment objectives such as to preserve the principal, protect against inflation, receive stable returns and achieve long-term growth. Posse relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Annual spending from the endowment fund for program expenses is established by the Board of Directors prior to the beginning of each fiscal year as part of the annual budget process. Unless authorized by the Board of Directors, the appropriations from the endowment funds should not deplete the real dollar value of the endowment fund.

Posse is unique. While there are many programs that provide educational opportunity to underrepresented minorities, Posse provides that opportunity to students who have demonstrated the likelihood that they will achieve a high level of success and become leaders of the future. As we have seen so many times, these young people confront adversity and survive and thrive. For Susan and me, they are a continuing source of pride.

# ON THE FRONT LINES

The Live

**HECTOR SALAZAR** 

CONNECTICUT COLLEGE POSSE ALUMNUS (CLASS OF 2020) POSSE CHICAGO

### Hector found academic focus at Connecticut College in environmental science—and he found a simultaneous sense of purpose as a volunteer firefighter and EMT in the local community. "I

was 19 when I got certified as a firefighter," he says, "and in my junior year I got my Connecticut license to practice emergency medicine. I started running medical calls that summer." Hector embraces the many different sides of his identity. "I'm very proud of my heritage, very proud of the way I grew up with family from Colombia and Mexico. I've kind of come to terms with understanding it as a hybrid identity. I live on the hyphen." It's not every day that a college student's part-time job is at a firehouse, but Hector stayed with the job, even as COVID-19 hit and students left campus. And more than that his firehouse voted him into the rank of second lieutenant earlier this year. "I'm the only Latino firefighter in Waterford. To be an officer, I think that says something. I wear my fire department name on my helmet shield, but my family's name is on my coat. It says Salazar on the back, and I wear that with pride."
