THE POSSE FELLOWSHIP PROGRAM

POSSE'S MISSION

The Posse model works for both students and college campuses and is rooted in the belief that a small, diverse group of talented students—a Posse—carefully selected and trained, can serve as a catalyst for individual and community development. As the United States becomes an increasingly multicultural society, Posse believes that the leaders of the 21st century should reflect the country's rich demographic mix. The key to a promising future for our nation rests on the ability of strong leaders from diverse backgrounds to develop consensus solutions to complex social problems. Posse's primary aim is to train these leaders of tomorrow.

THE POSSE FELLOWSHIP PROGRAM

Since 2001, the Posse Fellowship Program has matched Posse Scholars with national fellowships that recognize their talent and future potential to be the leaders of tomorrow.

To date, Posse Scholars have won more than 600 national fellowships that include

POSSE FELLOWSHIP WINNERS

With the growth of Posse's Graduate and Fellowship Programs in 2013, enhancements to the tracking and support Scholars and alumni received contributed to growing numbers of fellowship awardees. Our published list of select fellowship winners below includes Scholars and alumni starting from the time of that growth period and beyond.

In the face of the global pandemic, many fellowship recipients in academic year 2020–2021 had their experiences interrupted, deferred, conducted virtually, or cancelled. Posse still recognizes the excellence of our Scholars and alumni who have won competitive fellowships, even if their programs were impacted negatively by COVID-19. Posse has every hope all programs will resume as soon as it is safe and possible.
